(hereinafter referred to as Agrokor) and the companies affiliated to it, in a way that is clearly compliance with the provisions of the law as laid down in the Act on Conditions for Appointment of Extraordinary Management Board Member in Companies of Systemic Importance to the Republic of Slovenia (hereinafter referred to as the ZIČUDSP).

4. TRANSACTIONS WITH THE AGROKOR GROUP COMPANIES

Each year, Mercator compiles a report on transactions with affiliated companies pursuant to the Companies Act and the Tax Procedure Act. The report is adopted and approved by the Mercator Management Board and it is also reviewed by the auditors. The report presents all transactions with the affiliated companies, the pricing principles or methods employed in each transaction, and proof of compliance with the arm's length principle, i.e. comparability of transfer prices with the current market prices. Functional analysis is conducted for each transaction (tasks performed relative to the assets/funds invested, or services and risks assumed), which is the tool for the observance of the arm's length principle and for specification of comparable market prices. Functional analysis is used to evaluate the differences in the contents of the transactions effected with affiliated companies and the transactions effected with non-affiliated companies, which is necessary for proving the regularity of transfer pricing.

Pursuant to the Companies Act, Mercator developed for 2017 a report on all transactions with affiliated companies. The report was approved by the Mercator Management Board and reviewed and approved at Mercator's Supervisory Board session on April 25, 2018. The Management Board hereby confirms that the report is compliant with the principles of diligence and credibility, and that the company did not sustain any loss or damage with regard to any of the detailed transactions. The Management Board also confirms that Mercator did not enter or execute any legal transaction with its parent company in 2017, which would result in damage or negative consequences for the company's operations.

The report was also audited by a certified auditor and also approved in the Independent Auditor's Report dated April 25, 2018, confirming that the report on transactions with affiliated companies is true and accurate in all material aspects.

Mercator is compiling the said report for 2018 as well. After the end of the fiscal year, this report will be approved by the Management and Supervisory Board and reviewed by the auditors.

In determining the prices in transactions with affiliated companies, Mercator observes its internal rules and Regulations on transfer pricing, and the arm's length principle as laid down by the OECD Transfer Pricing Guidelines for Multinational Enterprises and Tax Administrations.

4.1 PROCUREMENT AND SALE OF TRADE GOODS/MERCHANDISE

4.1.1 Procurement of trade goods/merchandise

In the reporting period, Mercator procured trade goods (or merchandise) from the following Agrokor Group companies: PIK Vrbovec, Pik Vinkovci, Belje, Agrolaguna, Solana Pag, Dijamant, Velpro-centar, Zvijezda, Ledo, Jamnica, and Costella.

There were no major discrepancies in the reporting period. Occasional discrepancies may occur in the structure and cost (purchase value) due to the structure of sales and particular promotional activities. The greatest effect can be seen in the category of meat produce due to the Easter holiday which started much earlier this year than last year. There are no other significant discrepancies. In case of an improvement in market share, this is also reflected in the share of sales or procurement at Mercator.

Procurement of trade goods/merchandise, fast-moving consumer goods, was consistent with the General Terms and Conditions of the company Mercator in Procurement of Goods, effective as of January 1, 2017, for all goods suppliers. General Terms and Conditions are a constituent part of the Goods Procurement Agreement signed by the company Mercator with suppliers of goods, non-affiliated and affiliated companies.

Pricing and proving the comparability of transfer prices to market prices (arm's length principle)

Mercator has access to comparable data on procurement prices of comparable goods from non-affiliated suppliers. Information on purchase prices, together with functional analysis, prove that the procurement prices in transactions with non-affiliated persons/entities are comparable to the procurement prices in transactions with affiliated persons/entities.

4.1.2 Sale of trade goods/merchandise

In the reporting period, Mercator sold trade goods (or merchandise) to the following companies: PIK Vrbovec, Ledo, Kompas, and Costella.

Mercator effected transactions with Agrokor Group companies, involving sale of frozen meat, ice cream toppings, PET packaging, gas, and foil in transit.

In the reporting period, sale to Agrokor Group companies was consistent with the adopted sales and payment conditions for agro and transit (opposite / offsetting transactions that hedge the credit risk due to the possibility of netting, reciprocity of payment terms, agreed mark-up on the purchase price of material), and it was conducted based on the effective purchase and sale agreements for the requirements of agro and transit sales for all customers for 2018.

Pricing and proving the comparability of transfer prices to market prices (arm's length principle)
 Mercator has access to comparable data on sales prices of comparable goods for non-affiliated buyers. Information on sales prices, together with functional analysis, prove that the sales prices in transactions with non-affiliated persons/entities are comparable to the sales prices in transactions with affiliated persons/entities.

4.2 FINANCING

4.2.1 Guarantees and warranties

In the reporting period, Mercator did not grant any guarantee, warranty, surety, or any other similar commitment to any Agrokor Group company.

Moreover, Agrokor Group companies did not grant any guarantee, warranty, surety, or any other similar commitment to Mercator in the reporting period.

4.2.2 Loans

In the reporting period, Mercator did not extend or grant to Agrokor Group companies any loan, advance payment or commodity credit, or pay them extra services that would require approval by the extraordinary Management Board member pursuant to ZIČUDSP.

Moreover, Mercator did not receive any loan, advance payment or commodity credit from Agrokor Group companies. The only loan received by Mercator from the Agrokor Group is the long-term loan in the amount of EUR 20 million, granted by the company Agrokor upon acquisition on June 26, 2014.

Agrokor	20,000,000	20,000,000

4.3 REAL ESTATE

4.3.1 Property leased out

Out of Agrokor Group companies, Mercator only leased out real property to the company Kompas and Jamnica in the reporting period. Mercator leased out commercial premises (offices) to the company Kompas within its shopping centres based on signed lease agreements. Offices not used by Mercator were leased out to the company Jamnica based on a signed lease agreement.

In determining or setting the prices for lease of real estate to affiliated companies, Mercator observes both market aspects that are relevant in determining the price of lease in relation to non-affiliated parties (arm's length principle) and other comparable circumstances.

Mercator has opposite/offsetting transactions in place with both companies, which hedge the credit risk as they allow mutual netting.

Pricing and proving the comparability of transfer prices to market prices (arm's length principle)

Information on rent at which Mercator is leasing out commercial premises to affiliated companies proves, along with the functional analysis, that rent is at the level of market prices or comparable to rent at which Mercator leases out its real property to non-affiliated companies.

4.4 MARKETING AND OTHER SERVICES

4.4.1 Provision of marketing services

In the reporting period, Mercator provided marketing services for the following Agrokor Group companies: PIK Vrbovec, Ledo, Jamnica, Zvijezda, Kompas, and Costella. Services largely pertain to advertising in Mercator's special offer campaign flyers, temporary lease of additional in-store exposure and refrigerators, promotional materials for stores, inclusion into Mercator's marketing projects, introduction of new products and replacement of existing ones. Services were rendered and charged based on effective price lists. Mercator has opposite/offsetting transactions in place with all companies, which hedge the credit risk as they allow mutual netting.

Pricing and proving the comparability of transfer prices to market prices (arm's length principle)

Prices of marketing services provided by Mercator were based on relevant price lists. The same price list is used for both affiliated and non-affiliated persons/entities. The prices are based on comparable market prices or based on the actual ratio between supply and demand.

In the reporting period, Mercator ordered marketing and other services from the companies Kompas and Velpro-centar.

We ordered tourist arrangements from the company Kompas for awards given out as a part of our marketing activities, and other services related to marketing activities. In case of Velpro, Mercator procured consulting services for development of wholesale and logistics operations, based on a signed service agreement.

Pricing and proving the comparability of transfer prices to market prices (arm's length principle)

Affiliated companies charged the services to Mercator based on the price list that also applies to non-affiliated companies, or prices according to the arm's length principle. Information on prices, along with functional analysis, prove that the prices are actually determined based on market prices (at arm's length principle).

4.5 IT SERVICES

In the reporting period, mStart was the only Agrokor Group company from which Mercator ordered IT support services.

The services pertain to the IT solution in infrastructure and introduction of new reporting systems: database maintenance, setting up the Agrokor security policy, and maintenance of the Remedy application.

Mercator ordered these services based on signed agreements: agreement on provision of IT services; agreement on upgrade of Mercator IT infrastructure; and agreement on reporting system implementation.

Pricing and proving the comparability of transfer prices to market prices (arm's length principle)

Service prices for IT solutions commissioned by Mercator from the affiliated company mStart were comparable to market prices, i.e. prices charged by non-affiliated service providers in the market.

IT process support services	463,055	133,951	73,471
TOTAL	463,055	133,951	73,471

4.6 SERVICES RELATED TO THE PIKA CARD

In the reporting period, Kompas was the only Agrokor Group company to use the Pika card. For both affiliated and non-affiliated companies included in the Pika card system, Mercator is providing certain card transaction services and renting out POS terminals that allow transactions with the Pika cards.

Pricing and proving the comparability of transfer prices to market prices (arm's length principle)

Mercator charges a fee for its services, and rent for the use of POS terminals.

The amount of the fee depends on the transaction volume with the Pika card, and business arrangement with the business partner. Mercator charges the same rent for use of POS terminals to both affiliated and non-affiliated companies. The amount of such rent is calculated based on the amount of rent paid by Mercator to a non-affiliated company.

5. RECEIVABLES FROM AND PAYABLES TO AGROKOR GROUP COMPANIES

5.1 RECEIVABLES

Since the enactment of the so-called Lex Agrokor, Mercator has been actively striving to collect as much of its receivables reported and recognized in the procedure of extraordinary management of Agrokor as possible. To this end, we developed several specific proposals that were presented to both the previous and the current authorized management representative of the company Agrokor. With the enactment of the ZIČUDSP, the extraordinary Management Board member is also included in all collection procedures. He also communicates directly with the Agrokor management and their consultants. Most proposals have been rejected until the reporting date.

Repayment of creditors according to published proposal by Agrokor are defined on the basis of the entity priority model, i.e. the liability settlement model. In this model, each company under the extraordinary management at the Agrokor Group will be assigned a certain percentage of the funds for repayment of such company's receivables.

All receivables originating from after the enactment of the so-called Lex Agrokor are effectively managed. Companies in the Agrokor Group mostly repay their liabilities within the agreed payment terms, mostly by due date.
